

Cybersecurity in Healthcare:

# The diagnosis and the antidote

As healthcare data breaches increase, what does it take to stay ahead of threats?

**\$9.23M**

The average cost of a data breach in healthcare **increased from \$7.13 million to \$9.23 million between 2020 & 2021.**  
[2021 IBM & Ponemon Institute Report](#)

**11**

Healthcare has had the highest industry cost of a breach for **11 consecutive years.**  
[2021 IBM & Ponemon Institute Report](#)

**76%**

of Americans are concerned about their **medical and personal data being targeted by hackers.**  
[UIC: Protecting Patient Information in the Age of Breaches](#)

Healthcare organizations need security solutions to stay ahead of the targeted threats.

**68%**

increase in breach incidents reported to Health and Human Services (HHS) since March 1, 2020.  
[Source: US HHS OCR Breach Portal Data](#)

**Why?**

**\$7.13M average total breach cost** – healthcare has the highest with worst mean time to identify (MTTI) at 236 days.

These 4 key steps can help your healthcare organization reduce cyber risk with a more business-driven approach:

**1**

Effective vulnerability management

**2**

Timely detection to help minimize data breaches

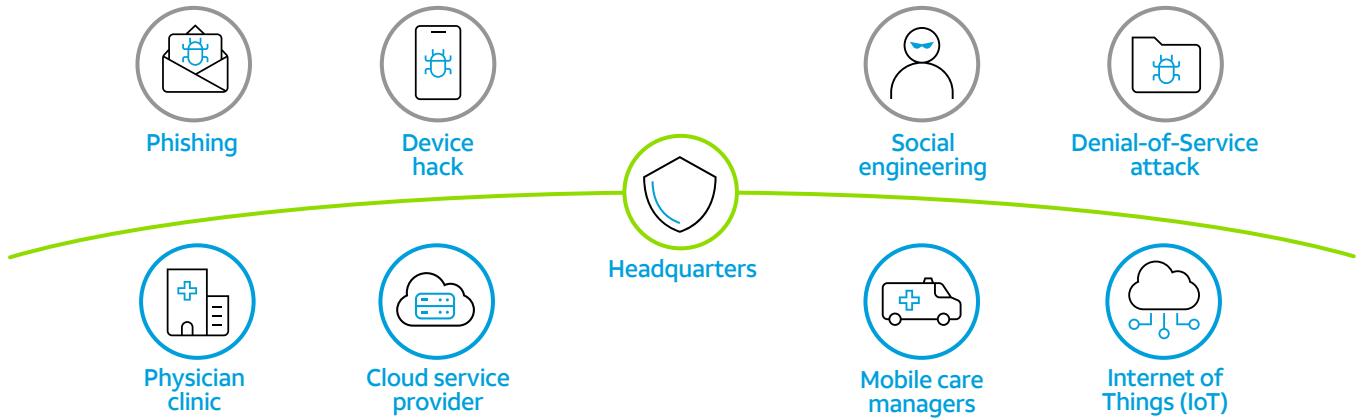

**3**

Take a risk-based approach to security

**4**

A well-formed incident response plan to help withstand a data breach

## Secure patient data and improve patient care.

Current healthcare challenges	AT&T security solutions
Adoption of healthcare industry-specific standard of HITRUST Common Security Framework (CSF)	<ul style="list-style-type: none"> <li>• HITRUST CSF readiness and validation/certification assessment</li> </ul>
Security awareness training	<ul style="list-style-type: none"> <li>• Security awareness training</li> <li>• Social engineering</li> </ul>
Proactive incident response reporting processes	<ul style="list-style-type: none"> <li>• Incident response tabletop exercise</li> <li>• Incident response retainer</li> <li>• Managed Vulnerability Program and penetration testing</li> </ul>
Achieve and sustain compliance with HIPAA/HITECH regulations	<ul style="list-style-type: none"> <li>• HIPAA/HITECH compliance assessment</li> <li>• Healthcare risk and compliance assessments</li> </ul>
Manage patient data in a highly secure manner	<ul style="list-style-type: none"> <li>• Secure Remote Access</li> <li>• Secure Web Gateway</li> <li>• SASE solutions</li> </ul>
Optimize security efforts for third-party vendors	<ul style="list-style-type: none"> <li>• Third-party risk management</li> </ul>
Protect healthcare operations	<ul style="list-style-type: none"> <li>• Security Operations Center Consulting and Threat Manager</li> <li>• IoT cybersecurity consulting</li> <li>• DDoS defense</li> </ul>
Emerging technology and innovation	<ul style="list-style-type: none"> <li>• Cloud security assessments</li> <li>• Security strategy for technology investments</li> </ul>

Safeguard your organization with a multi-layer approach powered by Threat Intellect®, advanced data analytics, to help protect against security breaches.
